

# WHY ENDURA

## The **ENDURA** Advantage

### ENDURA - HIGH PERFORMANCE COATING SYSTEMS

Our Polyester Polyurethane topcoat formulation will **OUTLAST & OUTPERFORM** the acrylic topcoats typically found in the industrial coatings market. They provide the following advantage over acrylics:

LONGER LASTING COATING  
EXTENDED SERVICE LIFE

### ENDURA - LOW VOC COATING SOLUTIONS

Endura is committed to providing high quality, heavy duty coating solutions that are environmentally responsible and meet all government regulations. Endura systems include, Low VOC, HAPs free and can meet all VOC requirements including the stringent SQACMD levels.

### ENDURA - HIGH DEFINITION PIGMENTS

Endura uses high quality Automotive grade pigments to ensure clean vibrant colors. Endura Topcoats:

Have **OUTSTANDING** Color Retention  
Resist Fading and Color Degradation due to environmental exposure.

### ENDURA - OFFICIAL COLOR VERIFICATION PROGRAM

The Official Color Standards program is designed to create a **SINGLE SOURCE** for color verification that will be accessible to everyone involved in the color matching and color QC process.

With this program:  
We can keep all Endura/Polyglass locations and applicators up to date with official standards.  
Ensure the highest consistency and accuracy levels when it comes to color reproduction.

Primers under 2.1 lbs/gal  
Primer Sealers under 2.8 lbs/gal  
Color topcoats under 3.5 lbs/gal  
Clear coats under 2.1 lbs/gal

# PRODUCTS

## OUTLASTS & OUTPERFORMS

Endura industrial coatings are designed and tested in the world's harshest environments, from offshore oil rigs to gravel trucks, providing an easy to spray, long lasting coating that will protect your investment for years to come.

### Intermix 3:1 EPOXY PRIMER

**Intermix 3:1 Primer** is a medium solid, medium build, two-component, epoxy primer providing excellent adhesion, hardness and corrosion resistance.

FILL BLAST PROFILE IN 1 COAT

PRODUCTION SPEED

ECONOMY

### EP HiBuild EPOXY PRIMER

**EP HiBuild Primer** is a high solid, high build, two-component epoxy primer. It is ideally suited for heavy industrial uses and/or waterproofing requirements.

WATERPROOF

SOLIDS

OFFSHORE SPC

### Caliber ZINC PRIMER

**Caliber Low VOC Primer** is a high solid, low VOC, epoxy zinc primer. It provides superior adhesion, cathodic corrosion protection and impact resistance.

CORROSION PROTECTION

ZINC LOAD IN DRY FILM

IMPACT RESISTANCE

### EX-2C POLYESTER TOPCOAT

**EX-2C Topcoat** is a two component highly cross-linked, high performance polyester polyurethane coating providing a high gloss surface finish.

GLOSS + COLOR RETENTION

CHEMICAL & IMPACT RESISTANCE

## The **ENDURA** Advantage

Alkyd air dry enamels, waterborne & light industrial products

Low VOC and HAPs free products & coatings systems

Full lineup of specialty coatings (Offshore, Aviation, Waterborne etc..)

Significant improvement on quality, durability & longevity;  
With only minimal difference in the application cost
